

Federation of Systems (FoS) (glossary)

federation of systems (fos)

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

A system of systems that rates high on three dimensions of autonomy, heterogeneity, and dispersion. Each component system chooses of its own accord to participate in the FOS as it sees fit. It is a "coalition of the willing." (Krygiel 1999)
