> a system resilience principle that states that every node, or element, of a system should be capable of communicating, cooperating, and collaborating with every other node. Jackson and Ferris (2013)

## Source

Jackson, Scott, and Timothy Ferris. 2013. "Resilience Principles for Engineered Systems." Systems Engineering 16 (2):152-164.

## Discussion

In a resilience context the internode interaction principle supports the integrity attribute.
