

Life Cycle (glossary)

Use Case 5: General Managers > System Life Cycle Process Drivers and Choices > life cycle

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

(1) *The organized collection of activities, relationships and contracts which apply to a system-of-interest during its life.* (Pyster 2009, 73)

(2) *The evolution of a system, product, service, project or other human-made entity from conception through retirement.* (ISO/IEC/IEEE 2015)

(3) *Development (life) cycles start with user needs and end with system decommissioning and disposal. Project cycles contain three aspects: business, budget, and technical.* (Mooz, Forsberg, Cotterman 2003, 259)
