ISO/IEC/IEEE 15288

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

ISO/IEC/IEEE. 2015. *Systems and Software Engineering -- System Life Cycle Processes*. Geneva, Switzerland: International Organisation for Standardisation / International Electrotechnical Commissions / Institute of Electrical and Electronics Engineers. ISO/IEC/IEEE 15288:2015.

## Usage

---

This source is considered a primary reference for the following articles:

- Analysis and Selection between Alternative Solutions
- Synthesizing Possible Solutions
- Systems Engineering and Management
- System Life Cycle Process Models: Vee
- System Definition
- Business or Mission Analysis
- System Requirements
- Logical Architecture Model Development
- System Realization
- System Implementation
- System Verification
- System Deployment
- Operation of the System
- System Maintenance
- Planning
- Configuration Management
- Information Management
- Relevant Standards

- Integration of Process and Product Models
- System Validation
- Stakeholder Needs and Requirements
- Concept Definition
- Applications of Systems Engineering

## **Annotation**

---

To view the abstract for this standard, see the ISO website.

**SEBoK v. 2.9, released 20 November 2023**
