

Life Cycle (glossary)

life cycle

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

(1) *The organized collection of activities, relationships and contracts which apply to a system-of-interest during its life.* (Pyster 2009, 73)

(2) *The evolution of a system, product, service, project or other human-made entity from conception through retirement.* (ISO/IEC/IEEE 2015)

(3) *Development (life) cycles start with user needs and end with system decommissioning and disposal. Project cycles contain three aspects: business, budget, and technical.* (Mooz, Forsberg, Cotterman 2003, 259)
