Geneva, Switzerland: International Organization for Standardization (ISO)/International Electrotechnical Commission (IEC)/ Institute of Electrical and Electronics Engineers (IEEE). ISO/IEC/IEEE 24765:2010.

Discussion

In the systems engineering context, recursion is used in re-application of the same standard (in the case ISO/IEC 15288) as a system is decomposed into system elements and where the elements are systems as well. The standard is re-applied for each system-of-interest (SoI) on each level.
